

A Metrotile steel roof exceeds the expectations of traditional roofing materials and offers nice visual appeal, almost indistinguishable from a traditional roof.

If you buy a Metrotile roof:

- ☑ you buy a roof for life.
Designed and manufactured to the highest possible standard and quality.
- ☑ you protect your home and family.
Resistant against extreme weather, fire proof and your home has less weight to carry.
- ☑ your building project looks fantastic.
A wide choice of profiles, finishes, colours,... for each type of project.
- ☑ you are economic and ecologic.
Solar tiles, longlasting, no maintenance, 100% recyclable and less transport and structural cost.

A worldwide presence

Our tiles and accessories can be seen on rooftops in over 80 countries worldwide and is improving its position at the market every year thanks to the excellent personal contacts, a proper proportion between price and quality combined with an excellent (technical) service and diversification of the product line!

Proven quality worldwide

The products are regularly tested on coating adhesion, flexibility and coating hardness to ensure they conform to the standard, before being despatched.

**PRODUCT
QUALITY
100%

Metrotile
worldwide roofing systems

For every home or building project a different look

Our profiles are designed to reflect the styles of traditional roof products and therefore blend into the surrounding environment, irrespective of whether it is a modern, classic or contemporary building.

The high-quality, lightweight and diverse range of profiles and finishes makes it possible to use Metrotile in a wide variety of applications for new-build or renovation. Our products are suitable for homes, offices, retail stores, schools, leisure facilities, hospitals,...

Highest performance material

Each Metrotile product is pressed from the highest quality steel available in our industry, to guarantee a durable and strong roof. The steel is coated on both sides with an exclusive aluminium-zinc (ALUZINC®) primer that offers an excellent protection against fire, corrosion and less vulnerability to fracture.

- Acrylic top layer
- Quartz-based granules
- Acrylic Base Coat
- Adherence coating
- Aluzinc AZ 185®
- Base Steel
- Aluzinc AZ 185®
- Protective coating

A wide range of roof accessories

Metrotile also supplies a full range of accessories that fully integrate with our lightweight steel roofing systems. Each product is manufactured to the same high standards as our tile profiles.

* available in Roman, Bond, Woodshake and Classic

In a variety of different colours and finishes

Give your home or building a fantastic look by choosing the colour of the roof yourself. We offer a wide selection of colour options for your roof.

Powdercoated tiles in Matt / Satin or Gloss finish available on request.

* And many more! We can make the colour of your desire on demand. Please ask your dealer for more information. The colours may vary slightly to what is shown in this leaflet.

Aquapan, a special new 1 m² DIY panel for the roofing and cladding of smaller domestic projects, like pet kennels, gazebos, Wendy houses and small storage sheds, is available in a mini profile of the Metrobond tile in charcoal stone coating. The panels and accessories are designed to avoid any cutting of sheets, allowing for neat and easy installations.

MultibOND is a 310 x 890 mm, tile panel sheet providing an attractive stone coated alternative in a limited market for pre-painted panel tiles. Constructors of standard houses, cottages, garden houses, will have the effect of the real classical Metrobond roof tiles together with the additional advantages of faster installation and the premium stone coated colours to give their projects a unique textured finish. Most of the comprehensive range of Metrotile accessories and flashings can also be used with these products.

Contact your local distributor for advice and assistance to cover your dream home in eco-friendly Metrotile.
