

**Metrotile®**  
worldwide roofing systems

**Multibond**

**A traditional and attractive roof with timeless effect**

The Multibond provides traditional beavertail clay tile aesthetics without the concerns of heavy weight and tile breakage.

Several rows in height and five columns combined in a single panel, provides a maximum coverage and reduces labor expense.

**PRODUCT  
QUALITY  
100%  
GUARANTEED**

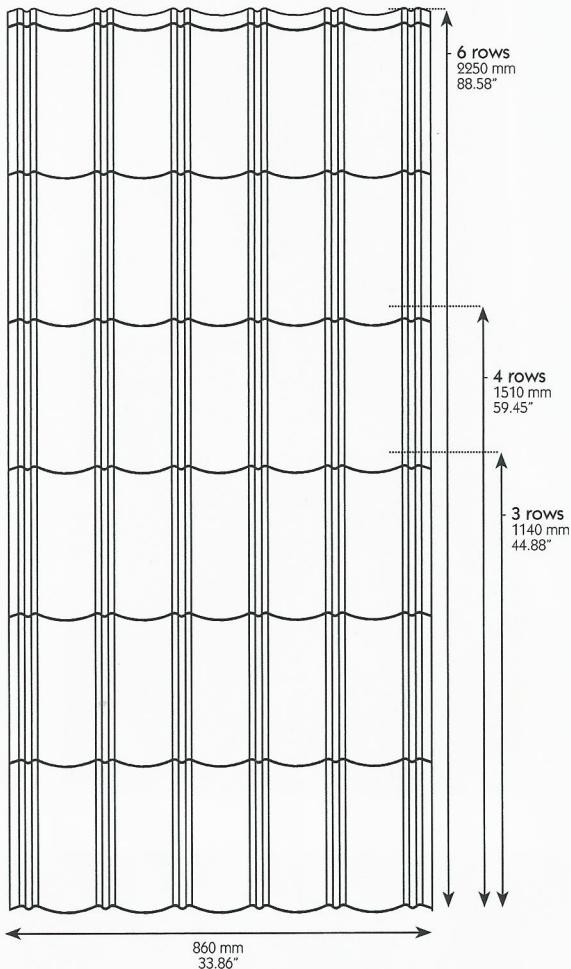

*Weatherproof  
guarantee  
of a  
lifetime*

Specifications on reverse side.

Linear cover width*	795 mm	86.81"
Coverage*	0,57 pc/m²	5.3 pc/square
Coverage of a panel*	1,75 m²	18.87 ft²
Weight per panel*	10,26 kg	22.61 lb

\* With a tolerance of  $\pm 3$  mm on measurements and minimal tolerance in weight.

\*\* Steel thickness according to the EN 10346.

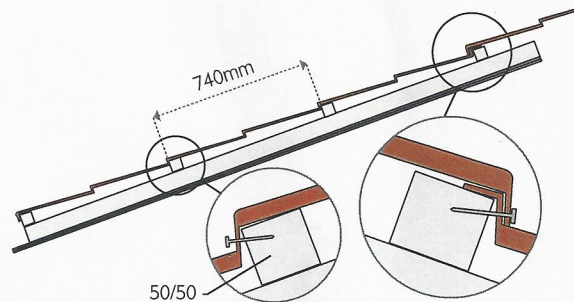

## STANDARD COLORS

More colors available. Ask your dealer for information.

## INSTALLATION

The Multibond has to be installed from left to right.

The panels are placed onto battens of 50x50 mm spaced 740 mm.

A downturned front edge (nose) and upturned rear edge (shelf) on each tile creates a strong, weatherproof, overlapping and interlocking assembly. Each tile is secured with four nails in the panel nose, away from water channels.

## ACCESSORIES

We offer a broad range of accessories.

- **Ridges, junctions and end caps.**  
Offered in angled, squared and curved profiles.
- **Fascia, sidewall and headwall transition flashings.**
- **Ventilation systems.**
- **Installation Equipment: nails, benders, guillotines.**  
It is important to use tools recommended by us.
